

# CPC10111 Certificate I in Construction

## Qualification Description

This qualification provides an introduction to the construction industry, its culture, occupations, job roles and workplace expectations. The units of competency cover essential work health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials. The qualification is built around a basic construction project unit that integrates the skills and embeds the facets of employability skill in context.

## Licensing/Regulatory Information

No occupational licensing, legislative or certification requirements apply to this qualification at the time of publication.

## Language, literacy and numeracy

All applicants are required to complete a Language, literacy and numeracy assessment prior to enrolling and will require sufficient language, literacy and numeracy skills to be able to complete the assessment. This program requires sound communication and interpersonal skills, the capacity to read and interpret written instructions and the ability to analyse and write reports in context to the job role.

## Entry Requirements

There are no entry requirements for this qualification.

## Employment Pathways

Individuals entering into this industry may take on jobs roles as a construction worker or laborer.

## Education Pathways

There are no specific job outcomes to this qualification, but the skills achieved will assist in successfully undertaking a Certificate II pre-vocational program or job outcome qualification or will facilitate entry into an Australian Apprenticeship.

## Packaging Rules:

To achieve this qualification, the candidate must demonstrate competency in:

11 units of competency:

- 8 core units
- 3 elective units

## Core Units

CPCCCM1012A	Work effectively and sustainably in the construction industry
CPCCCM1013A	Plan and organise work
CPCCCM1014A	Conduct workplace communication
CPCCCM2001A	Read and interpret plans and specifications
CPCCCM2005B	Use construction tools and equipment

CPCCCM2004A	Handle construction materials

## Location\*

This course is delivered offsite at a venue negotiated with the client.

## Duration\*

4 Weeks Classroom and on the job work experience.

## Mode of delivery

All courses offered by TABMA Training are delivered to meet student needs in a similar format with either face to face tuition and/or mentoring support. Some programs have a class-based training schedule to assist students with more comprehensive subjects and assessments.

Students are expected to attend all classes and successfully complete all tasks and activities during the course. There are also activities to be completed outside of the workshops. These activities are aimed at allowing the learners to apply the course content in their own workplace environment.

## Assessment type:

The assessments are competency based and use an open book approach book comprising both theoretical and practical exercises. These assessments typically include written questions; case studies/scenarios; individual assessment, and practical tasks in a simulated workplace environment.

## Student Eligibility Criteria:

There is no student eligibility criteria.

## Recognition of Prior Learning / Credit Transfers:

### Recognition of Prior Learning

Students may be eligible to apply for recognition of their chosen qualification by providing evidence of their previous training, employment experience or other life skills that meet qualification requirements. Successful applications may result in a reduced training time.

### Credit Transfer

Students may be eligible to apply for credit transfer. This is where you can provide evidence of previous studies where there is equivalence to the units of competency within the course. (Please refer to student handbook).

## Costs

Fee for service: \$2500 per full qualification or \$227 per unit of competency
